Paradigm Healthcare Services

Student Health Network (SHN)

SHN is a simple, secure, online solution for school nurses, health techs, and special education related service providers to collect, track, and manage student health records. In use by over 4,177 schools, SHN is proven at increasing efficiency, boosting coordination of care, and facilitating improved student outcomes.

Paradigm's SHN is an established electronic health records (EHR) solution designed specifically for K-12 schools. Developed in partnership with school providers, SHN's user-centric design seamlessly builds a comprehensive health record for each student.

SHN keeps track of student demographics, current/past medications, specialized procedures, individual health plans, medical histories, referrals and prescriptions, and progress notes. Not only does it provide a solution for the school health office, thousands of special education related service providers rely on SHN to track and monitor student outcomes.
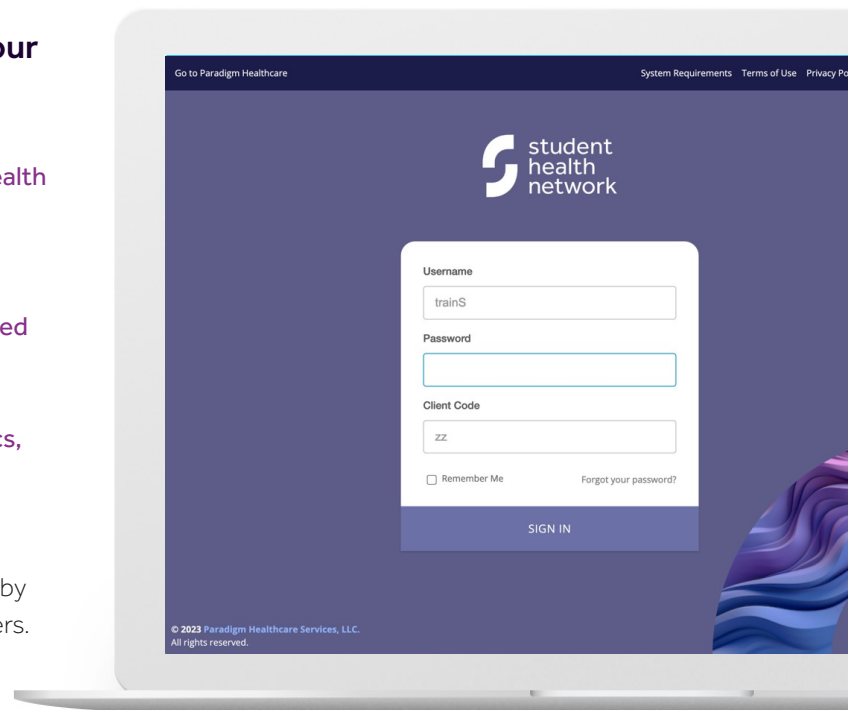

SHN also supports the Medicaid claiming process by capturing all details needed to submit compliant claims for reimbursement.

Paradigm continues to expand SHN's capacity as the needs in schools change. SHN is unrivaled in its ease of use and flexibility to meet the needs of its primary users, the providers.

A benefit to your students, your service providers, and you

- build a comprehensive electronic health record for each student
- monitor the quality of care
- facilitate coordination of care
- provide evidence of services rendered (both direct and indirect care)
- compliant electronic signatures
- access real-time reporting, statistics, and health trends
- streamline Medicaid claiming

SHN is a stable product, currently in use by thousands of K-12 school health providers. SHN has an integrated ICD index and is FERPA and HIPAA compliant.
